CUTTING TOOLS

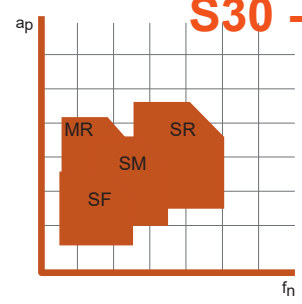

HRSA TURNING

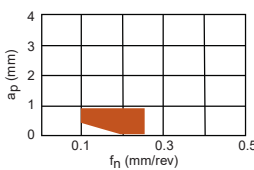

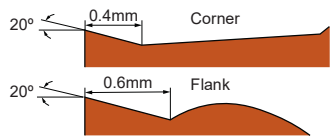

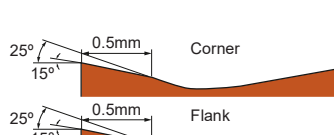

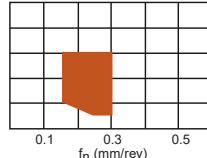

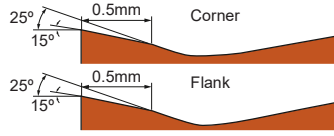

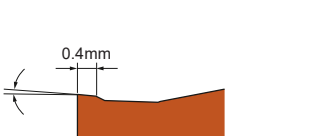

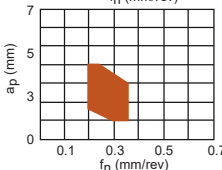

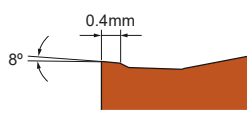

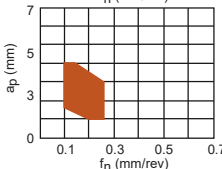

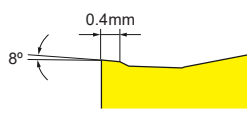

ET41P PVD S05-S15
For clean HRSA materials

ET24P PVD M30-M40, S30-S50
For skin and scale cuts at low speeds

Finishing Clean HRSA	Medium Clean HRSA	Roughing Clean HRSA	Roughing Scale & Skin
-------------------------	----------------------	------------------------	--------------------------

 SF	Finishing Periphery ground insert with enhanced chip control for depth of cut smaller than R		 20° 0.4mm Corner  20° 0.6mm Flank
 SM	Medium Large two step rake corner for improved chip control without clogging		 25° 0.5mm Corner  25° 0.5mm Flank
 SR	Roughing Controlled adhesion resistance with excellent boundary wear in low cutting speeds		 8° 0.4mm
 MR	Scale & Skin Tough top coating for high wear resistance in skin and scale cuts		 8° 0.4mm
